

DUETTA

Twin Filter Half Mask

P/N 102530000

DUETTA is an ideal facepiece for use in paint and pesticide spraying and in the handling of chemical products. Thanks to a soft sealing flap, it seats comfortably on the face, whilst the rigid shell firmly holds the cartridges and evenly distributes their weight. DUETTA together with Spasciani snap-in cartridges series 2000 is the best value respirator. Filtering cartridges can moreover hold special pre-filters that preserve the particle filter element from a too fast clogging up when used in particularly dusty environments.
